DESCRIPTION:

The CORDOVA-brand Cold Snap™ Cooling Bandanas feature an inner layer of super-absorbent, 100% cotton fabric with water-activated polymer cooling beads that accelerate the cooling process. Simply soak with water, wring out excess, and snap & shake to activate the cooling process. Designed to wear around the head, Cold Snap™ Cooling Bandanas stay cold for hours. They relieve heat stress through an evaporation process. When the bandana begins to dry, simply wet and reuse.
