TRIPLE-LAYER HEAT PROTECTION

**ONE SIZE
FITS MOST**

DESCRIPTION:

This machine knit BBQ glove from Cordova Safety Products offers three layers of heat protection through its silicone grip, heat-resistant shell, and interior liner. The red, 360° silicone grip strips offer excellent gripping strength for handling cooking utensils, racks, pans, and more. The heavy-duty, machine-knit shell is heat resistant and durable. The cotton/polyester interior liner provides additional comfort and heat resistance for a total contact heat resistance of up to 932°F. The BBQ glove is also an excellent choice for Outdoor Cooking & Camping, Indoor/Outdoor Fireplace Use, and Outdoor Brush Clean Up / Fire Pits. Sold as one tagged, retail-ready glove, it's ambidextrous, fitting both the left and right hands.
