

Cold Snap™ Machine Knit

FEATURES

- Cold Snap 3/4 Foam Nitrile Coated Gloves
- Heavyweight Brushed Terry Thermal Shell

DESCRIPTION:

The Cordova Safety Products-brand Cold Snap™ gloves are designed to provide a wide-range of protection for the cold, winter months. These Cold Snap gloves feature a heavyweight brushed terry thermal shell and 3/4 foam nitrile coating. Nitrile is an oil-resistant, synthetic rubber that is abrasion-, snag-, and puncture-resistant. Foam nitrile coatings are porous, which channels oil away from the glove surface for a secure grip in light oil applications. Are you ready for the Cold Snap?
