TUF-COR™ Nitrile

All Tactyle™ CR gloves are made with Tuf-Cor™ Nitrile which is a unique blend of Nitrile and Water-Based Polyurethane with a fine sandy textured finish. The durability of Nitrile and the flexibility and softness of Water-Based PU create a coating that offers outstanding abrasion resistance and remarkable tactile sensitivity. These features make Tuf-Cor™ Nitrile the ideal coating for our finely engineered 18 & 21-gauge high performance gloves.
